

Vision Easytac Opti Clear PET.

Technical Data Sheet

Description

Vision Opticlear Easy Tac is a premium large format media with innovative cling technology for window graphics, printing, and sign-making needs. It doesn't rely on adhesive, magnets or static, very easy to cling onto glass, and other smooth surfaces.

The base film of Vision Opticlear Easy Tac is transparent PET for indoor window advertisement. It's low-tack and will not leave adverse effect on applying surface.

Vision Opticlear Easy Tac is available for mirror printing to apply inside.

Vision Opticlear Easy Tac is adhesive-free, smudge-free & PVC-free, 100% recyclable, and therefore environmentally friendly.

Application

Clear

Print Compatibility

Excellent for street stores window advertisement.

Guidelines

Printing Tips:

Suitable printing condition: Temperature 15~30°C (59~86°F) / Humidity 30~60%;

Cautions:

The graphics film can be repositioned as many times in need, but make sure the Micro-suction layer is always free of dirt. Once any dirt on it, please use an adhesive tape to stick the dirt to renew for reuse.

Because of the character for PET film, please take note always keep the graphics film flat so as not to crease.

To optimize the printing quality, printers need to be set for highest print quality.

Storage:

Store at room temperature conditions of 50-73°F (10-25°C) and 50% relative humidity;

We recommend that you always keep this product in its original packaging.

Physical Characteristics

Caliper (face)	115±7 micron
Weight	155±9 g/m
180° Peel Strength (24Hr)	4.2g/25mm (0.15oz/in)
Elongation	150% max
Appearance	Transparent
Chemical Resistance	Resistant to most mild acids, alkalis, and salt solutions
Service Temperature	-40° to +200°F
Dimensional Stability	(300°F, 48Hr, Applied to a Glass) 0.1 inch
