

# Vision Wall Lizard.

## Technical Data Sheet

### Description

Vision Wall Lizard is a removable bubble free environmental friendly high quality printing media with SCITOP's patented gecko's toe pad cling technology. It is ideal for short term and long term indoor and outdoor applications, such as seasonal retail sales, trade show, office poster, signage, etc. Wall Lizard can be easily applied to most clean and smooth surfaces. It leaves absolutely no residue when removed, even after long application periods.

### Application

- Short term applications such as seasonal retail sales, trade shows.
- Longterm applications such as office posters & signage
- Suitable for most clean and smooth surfaces such as Glass & Metal

### Guidelines

#### Printing Tips:

Suitable printing condition: Temperature 15~30°C (59~86°F) / Humidity 30~60%;

#### Cautions:

The graphics film can be repositioned as many times in need, but make sure the Micro-suction layer is always free of dirt. Once any dirt on it, please use an adhesive tape to stick the dirt to renew for reuse.

Because of the character for PET film, please take note always keep the graphics film flat so as not to crease.

To optimize the printing quality, printers need to be set for highest print quality.

#### Storage:

Store at room temperature conditions of 50-73°F (10-25°C) and 50% relative humidity;

We recommend that you always keep this product in its original packaging.

### Characteristics

Film Thickness	115±7m
Total Thickness	165±10m
Film Weight	145±9m
Total Weight	215±13m
180 Peel Strength	10 30g/25mm
Release Force	40g/25mm
Elongation Break	>80%
Appearance	White
Working Temperature	-30" to 130"
Dimensional Stability	& 0.1 in
